

# Café Du Luxe

Coffee \* Wine \* Music \* Art

## Music

Does the sound system in your café remind you of your first car stereo? Well, that's about to change.

Café Du Luxe utilizes sound reproduction equipment usually reserved for the recording studio. Yamaha sound reproduction and fully digital recordings fill the café with the finest sound you've ever heard.

Our Music Menu has been designed to provide you with specific music genres on different days of the week and at different times of the day.

Look inside to find out when the music you most enjoy is playing.
